Please drop this rediculas, ongoing for months & tend to businesses much more important. Ex: Social Security Medical Insurance & % of yearly increases to at least meet cost of living Or % given government employees---Feed the HUNGRY Americans---& stop borrowing from S.S. so you can stay in black!

Microsoft has offered a generous settlement to the school children of the U.S .A by setting up computers for them to broadening their capabilities.

Your time spent on M/S could have been spent to solve these problems in less time, than this has taken.
